

## WORKMEN KILLED IN TERRIFIC EXPLOSION OFFICERS STILL FAIL TO UNRAVEL WEBER MYSTERY.

### WEBER IS STILL UNMOVED.

Further Evidence Complicates the Auburn Mystery.

AUBURN, Cal., November 18.—Adolph Weber received the news of the coroner's jury charging him with the murder of his father, mother, sister and brother without apparent emotion and said nothing as to his opinion concerning it.

His demeanor in court this morning was unchanged. R. J. Hancock gave some important testimony which still further complicates the mystery, as Mr. Weber's body was found in the bathroom.

He testified that he was one of the first persons there and saw Mrs. Snowden, who was screaming, and Mr. McKinstry. He broke the lower pane of the front window of the front room, from which the bodies were taken out and tried to pull the piano towards him, but the smoke drove him out. As he came down the steps of the porch he thought Adolph Weber came up. He says the child was carried out by a tall man. The back window of the dining room was broken and there was no fire in that room.

The whole hall was on fire and no one could have passed through it. The bathroom was all dark when the house was pretty well burned up. He broke the window and look in but could see nothing and there was no fire in the room. When he tried to get into the front room it was so full of smoke that he could not see the floor. He could not tell how Adolph was dressed when he met him. The window of the dining room was broken and the curtain gone.

John Davis, who built the Weber house, said that the front room, where the bodies were found, was about thirteen feet square. J. K. Corey went when the fire-bell rang and saw Mrs. Snowden and Chris Henry. There was no light shining through the front door. No one broke the front window until George Ruth and Guy Lukens did so. Mrs. Weber was brought out first. He recognized her face and one of her legs was half burned off. He might have been mistaken as to its being Mrs. Weber. They beat out the fire in her clothes with their hats. This was also done to Bertha Weber's body. He heard afterward that Adolph was near the fence, not on the porch.

### SHOT PASSING A CABIN.

WOMAN BURNED IN ORDER TO COVER UP CRIME.

WILLIAMSBURG, Ky., November 18.—George Cud and Emma Durham have been killed and Thomas Cud fatally wounded near Cumberland Falls. The Cud brothers owned a large tract of land and had trouble with squatters.

As they were passing the cabin where the Durham woman lived they were fired upon. Thomas crawled two miles to his home and George was dead when found. The Durham woman probably was killed and burned to cover identity.

LOS ANGELES, Cal., Nov. 18.—The condition of Miss Mina Rudolph, the leading lady of Jas. Powers San Toy Company, who was seriously injured in an automobile accident yesterday, was reported this morning as favorable. Miss Rudolph has not yet entirely recovered consciousness and is still having slight hemorrhages of the ears. The attending physician states that unless more serious complications arise, she will recover.

### OBJECTS TO WATER CIRCULAR.

Frank Shay Says Committee Did Not Act With Fairness.

The following letter is self explanatory:

To Hon. Warren Olney, R. H. Chamberlain, James K. Moffitt, Cary Howard, F. C. Turner, J. T. Wallace and Edwin Meese, Special Water Committee, Oakland, California—Gentlemen—

In receipt of your circular letter relating to two propositions for a water supply for Oakland, viz: the "Bay Cities Proposition" and the "Well System."

In your circular you say: "The committee desires your opinion as to which one of these schemes should be adopted. It intends to make the results of this informal vote a part of its report to the City Council. Express your preference on the enclosed card, as already indicated."

The voting card referred to is a model of brevity and simplicity, but rather unsatisfactory inasmuch as it seems to limit the voter to an expression of his choice of one scheme or the other. It is quite possible that many voters, like myself, are opposed to both schemes. It is likewise possible that many voters, like myself, would favor the purchase of the Contra Costa Water Company.

It strikes me that if your committee really desired an expression of opinion as to the acquisition of a water supply for the city, you should have given the voters an opportunity to choose between the two schemes which you submit and the purchase of the Contra Costa plant.

In your circular, you admit that the "well water" is not of the best quality for all purposes. You admit that it will be expensive to acquire the water rights and install a municipal distributing system. You admit that expensive litigation will be necessary before the city can hope to begin to supply water from the wells which exist only in theory. You admit that the quantity of water which may be secured is speculative. You and "competent engineers" are of the opinion that sufficient water can be obtained from these wells to supply the city of Oakland for a good many years to come, but you do not give any facts or figures to justify such an opinion.

Against your opinion and the opinion of your engineers, are the opinions of others that the well water is not of the best quality and that it is inadequate to supply the needs of the city. Add to the uncertainty of the quality and quantity of the water the cost and the delay incident to litigation, which you and I know is inevitable, the cost of the water area, the expense of installing a distributing system and the grafting incidental to all enterprises in which the city is interested, and I am satisfied that the taxpayers of Oakland would find the ultimate cost of the well system a great deal more than the Contra Costa Water Company's valuation of its properties.

So far as the Bay Cities Water Company's scheme is concerned, I cannot see that it is any better than the "well" scheme. It claims the ownership of the head waters of Del Valle and Santa Isabel Creeks, including sites for reservoirs, etc. It proposes to build two impounding dams sufficient to store enough water to supply Oakland with 20,000,000 gallons of water daily. It proposes to convey the water to the city boundary and then deed to the city the lands, reservoirs, water rights and pipe lines.

Evidently anticipating inevitable litigation it proposes to give a bond in the sum of one million dollars to indemnify and hold harmless the city against any suits or claims of adverse rights to the use of this water. Suppose, however, that after the city has paid the Bay Cities Water Company \$3,750,000 for its "scheme" and has expended \$2,000,000 more for a distributing system, the feared litigation should result adversely to the city; what would the one million dollar bond (even if it could be collected) amount to as against the loss of \$5,750,000 or more?

THE SPURNED OFFER OF TERMS: THE WHITE FLAG AND TRUMPETERS SENT TO GENERAL STOESEL BY THE EMPEROR OF JAPAN.

### RUSSIA GIVES PRAISE TO GENERAL STOESEL.

ST. PETERSBURG, NOVEMBER 18.—THE NEWSPAPERS TO-DAY DEVOTE LONG ARTICLES TO PRAISE OF LIEUTENANT-GENERAL STOESEL AND THE HEROIC GARRISON OF PORT ARTHUR AND TO A GENERAL ENDORSEMENT OF THE MOVEMENT STARTED AT KIEFF FOR A NATIONAL SUBSCRIPTION IN BEHALF OF THE FAMILIES OF THE KILLED AND SURVIVING DEFENDERS.

expense of litigation, etc., \$1,150,000

Total Actual Cost . . . . . \$1,150,000

I am satisfied that this total is more than conservative. In fact, I believe that if the city accepts the Bay Cities' proposition the ultimate cost will be nearer \$10,000,000.

While I have no interest in the Contra Costa Water Company, either as employee, attorney, stockholder or bondholder, yet it seems to me that if its plant can be purchased for \$7,000,000, it would be to the interest of the city to buy it at that figure, and the voters in Oakland ought to be given an opportunity to express themselves in the premises. While your committee has eliminated the Contra Costa Water Company and its properties from the consideration of the voters and has, in your circular, given that company several knock-outs as to its "old distributive system, pipe lines that have seen their best days, and a water supply from Lake Chabot, which is itself supplied by creeks running through a settled and agricultural country," and as to what may be feared in case of a prolonged draught, still, in all fairness, you should have permitted us to express our opinions as to the advisability of acquiring the Contra Costa properties, and not limit us to a choice which I may term, "a choice between two evils."

Respectfully,  
FRANK SHAY.  
Oakland, November 17, 1904.

DETROIT, Mich., November 18.—The bodies of a man and a woman with bullet holes through their heads were found in a buggy on Oak street in Ypsilanti today. The man is Henry Hill, and of Detroit. It is thought to be a case of murder and suicide.

Amount to be paid  
Bay Cities Co. . . . . \$3,750,000  
Distributive plant . . . . . \$2,000,000  
Total . . . . . \$5,750,000

To this permit me to add  
for the inevitable graft . . . . . \$250,000  
20 per cent for incidentals . . . . . \$1,150,000  
unexpected items of cost . . . . .

### WANT THE RUSSIANS TO PAY.

Dogger Bank Inquiry is Closed By the Board of Trade.

HULL, Eng., November 18.—The Board of Trade inquiry into the actual occurrence of Dogger Bank October 22d closed with yesterday's session and the commissioners will report to the Board of Trade as speedily as possible.

At the opening of to-day's session the commissioners and others paid high tribute to the gallantry of the members of the fishing fleet. Dr. Woodhouse, representing the Russian government, said he would like to say in behalf of those he represented how much they regretted what had occurred and that he agreed with the remarks concerning the bravery of the fishermen. It would give him the greatest pleasure to convey the purport of those remarks to the Russian government.

The court then heard evidence regarding the financial circumstances of the killed and injured fishermen, and those dependent upon them, and claims were put in. Among others Skipper Whelpel's health and shock to his nervous system, and \$2500 for saving the Mino when she was unserviceable. The skipper of the Gull claimed \$2500 for injury to his health and \$10,000 for saving the lives of the crew of the Crane. Others claimed from \$250 to \$500.

### FIVE MEN ARE KILLED.

Blown Up in a Terrific Gas Explosion in Chicago.

CHICAGO, November 18.—Twenty-two gas tanks in the big railroad gas-charging station at Seventy-third street and South Chicago avenue exploded to-day. This afternoon five dead bodies of employees had been removed from the ruins and it was said that about ten more employees were missing.

The tanks were of the style attached to railroad cars for lighting purposes. Eleven of the tanks exploded in rapid succession and were followed at short intervals by the other tanks. The fire spread among property of the People's Gas Light and Coke Company and threatens to reach the large storage tanks of that company. Policemen were sent out for a radius warning persons to move from their homes.

To prevent the explosion of the gas in the mammoth tanks Superintendent Ralph Wells ordered the waste pipes opened. These pipes run outside of the plant and in a short time the big tanks were discharging the gas into the air. This was a dangerous undertaking, but it was chanced, and, proving successful, prevented a larger destruction of property.

Across South Chicago avenue directly opposite the gas storage buildings was a large coal-shed stored with coal used in the manufacture of the gas. The huge coal pile was ignited and in a few moments was beyond control.

When the danger of the larger tanks exploding had been reduced to a minimum, Chief Engineer Eustace with several assistants entered the grounds and shut off the supply pipes from the ruined building to the large tanks. He said it was almost miraculous that the fire had not entered the larger tanks.

One victim was blown through a wall 100 feet away from the building in which he was at work. He was crushed, but may live.

The explosion may have been caused by a search for leaks in supply tanks made by one of the employees.

The cause of the rapid explosions was the presence of twenty-two small tanks in the storage building. These tanks were stored with 2250 pounds to the cubic inch of space of powerful gas. The tanks are used to place beneath sleeping cars and other railway cars and will supply one car with light for six months. The twenty-two tanks had been charged and were in readiness for attaching to cars.

Buildings along Greenwood avenue within a block of the place were so severely shaken that many will no longer be fit for occupancy.

### GUY BARHAM MAKES DENIAL.

LOS ANGELES, Nov. 18.—Guy B. Barham, state bank examiner, denies the statement given out at Republican headquarters in San Francisco that he will shortly tender his official resignation to Governor Pardee. Mr. Barham says, however, that while he has no intention of surrendering his office now, he will likely resign some time before the expiration of his present term, which is in June next. Pressure of private business is given as a reason for the contemplated resignation.

### WOMAN HELD ON MURDER CHARGE.

LOS ANGELES, November 18.—Rose Taylor, who shot and killed Frank Bennett, a man with whom she had been living at San Pedro, on November 7, has been bound over to the Superior Court "without bond" to answer to the charge of murder.

### STEAMER BURNED IN SOUND.

Crew Rescued By Passing Vessel in the Nick of Time.

NEW YORK, November 18.—While bound down Long Island Sound on one of her regular passages from this city and New London, Conn., the freight steamer Mohawk of the Central Vermont Railroad took fire off Horton's Point, L. I., and was burned to the water's edge early to-day. Her crew excepting the watchman were rescued by a passing steamship and taken to Fall River, Mass. It is believed the Mohawk will be a total loss and that little, if any, of her cargo will be saved.

The Mohawk left New York last evening with a full cargo of general merchandise. She had twenty-one persons on board, including two women. As the steamer passed Horton's Point the lighthouse keeper saw flames breaking from the boat and a few minutes later she was wrapped in flames.

Assistance was near at hand in the shape of the Fall River line steamer Boston, which had closely followed the Mohawk down the Sound, and those on board the burning steamer, with the one exception noted, were taken off. The flames had passed beyond control, however, and she was abandoned to her fate. A few moments after the Boston had resumed her interrupted voyage there came the sound of a heavy explosion and a mass of blazing debris, accompanied by a burst of flames, shot up from the center of the abandoned freighter.

When dawn came the steamer was lying fast on the bar off Horton's Point and only a portion of her upper works showed above the surface. This gradually disappeared as the fire ate its way into the hull of the boat. The lighthouse keeper was unable to make out the name of the abandoned steamer and it was not until the rescued crew, had reached Fall River that the name of the unfortunate craft was made known. Attempts to send assistance from shore were unsuccessful.

FALL RIVER, Mass., November 18.—The steamer Boston brought 27 persons from the Mohawk, including 25 of the crew and two women, wives of officers of the Mohawk. The night-watchman of the steamer, a Swede named Larsen, was lost. It is supposed he was burned to death.

### AGITATORS ARE UNDER ARREST.

ROME, November 18.—The police in several towns have arrested Socialist agitators who have been trying to distribute among the soldiers leaflets entitled "To Conscripts," inciting them to rebellion. The most energetic action has been taken by the War Office to check every attempt to create disorders. The officials are supported by public opinion.

Bronchial Troubles are often permanently cured by Fiso's Cure for Consumption.

# T. T. WILLIAMS WELCOMED HOME BY FRIENDS.

Popular Business Manager of the Examiner Given a Banquet at the Palace Hotel.

SAN FRANCISCO, November 18.—Last night a large number of the friends of T. T. Williams, business manager of The Examiner, gave a theater party and supper in celebration of his return from New York, where he has been in charge of the Hearst papers for upward of a year.

The company gathered at the Palace Hotel, where carriages were waiting to convey them to the Columbia Theater, where Theodore Roberts, a Native Son, is playing in George Ade's bucolic comedy "The Country Chairman." As many of the members of the party are prominent in the State's public life, the political hits of the play probably never found more appreciative listeners.

Mr. Williams was called out at the end of the third act and made a short address, his ease and felicity winning approval from the trained spellbinders. Returning to the Palace, the party found that the ladies' parlor on the first floor had been transformed into a handsomely decorated supper-room. The table was in horseshoe shape and the decorations were of white chrysanthemums and red holly berries. The menu tickled the palates of men accustomed to discriminate. Of course there was speech-making, and this was directed by Toastmaster Garrett W. McEnerney.

## TRIBUTE OF FRIENDS.

Mr. McEnerney spoke humorously of the trial of Mr. Williams in the East and of his continual yearning for his Western home. Then he referred to the eagerness with which friends of Mr. Williams had anticipated his return, of the esteem and love in which they held him, and of their genuine joy at his home-coming. To emphasize and give a finishing point to his remarks he presented a guest of the occasion he presented a handsome loving cup, which was at once sent on its rounds.

Mr. Williams was heartily cheered as he rose to respond, and in that response he spoke as follows:

"I didn't take any inducement to bring me back to San Francisco, so this splendid testimonial of friendship and good will I regard as a pick-up and not as a premium."

"California is all too good—the rest of the world is only foolshness. The land of Intelligence would rather be a hyacinth on Bush and Kearny streets and have an assistant engineer of the Fire Department lean against him, than be Mayor of New York, King of England, Emperor of Europe, or even a Tammany leader. The rest of the world makes money by cheating its neighbors or cutting down the way of its hired men. California has within its borders more than enough easily secured wealth for all of its population, and I am not particularly in favor of an increase of population except that which comes after the marriage service."

## THE RETORT COURTEOUS.

"At a club I attended in New York I said something about California and its climate. A merry wit from Boston, Mass., where they freeze seven months in the year, down two months and stew three months, handed me this hot one: 'Oh, climate is all very well, but you can't live on it.' I am not very quick at repartee, but after thinking it over for a minute or two I said, 'If I had a square acre of California climate in Boston I would build a thirty-story skyscraper around it and rent out rooms for \$100 a day.'"

"New York treated me very nicely. It really seemed anxious to have me stay there and did its little best to make me comfortable. But there is no joy for me in a place where you have to carry ice in your hat in the summer and wear a steel harness to avoid being killed in the bridge rush when you want to get out of town. E. O. McCormick told me that there was nothing in New York excepting the subway, and the great 'white-way' they call Broadway. In the subway they choke you with bad air and on Broadway they sell you roses at \$18 a dozen."

"If you ever hear of me contemplating leaving San Francisco again just get out a commission in lunacy, engage Abe Ruef to prosecute the case to insure success, and send me to Napa."

"The world's greatest heritage lies between the Sierras and the Pacific. I am in favor of keeping it for our children and their children."

"Last summer in Pennsylvania, New Jersey and New York they threw out of employment three-quarters of a million railroad employees and received as immigrants during the same period more than half a million more. Any place that has a million and a quarter of people out of work within such a limited area is pretty tough on those who have lived on the desert and consider it a crime to refuse food or drink to the hungry and thirsty. You can buy land on Long Island, within twenty-five miles of New York, for \$5 an acre, because the poor man in New York cannot afford to travel that distance out of town to live in comfort."

## TO BE SATISFIED WITH LIFE.

"It doesn't need the kindly welcome of this happy gathering to convince me that San Francisco is the place where I want to live, so this town needn't get all swelled up, by my being here. I have got common sense enough to know a good thing. Give me the income of the little old San Francisco 'Examiner', a Market street suite in the Palace Hotel, membership in a decent golf club, a first-class automobile and your good will, and I will try to endure even that Tuke Point oysters are as good as Blue Points and Market street is not quite as dirty as the Bowery, though it is pretty near."

"After I had been in New York about

a year I saw a pretty girl on the street. I could not help staring at her the sight was so unusual. She seemed somewhat annoyed at the attention, but I found enough courage to say, 'I really must apologize. I have been away from California a long time now and you will understand how the sight of a really beautiful girl must affect me.' Her face cleared in an instant. The resentment all vanished, and with the sweetest kind of a smile, she said: 'Oh, yes, I know, for I am from Oakland.'"

"There was a man at the meeting of the merchants last night who said he felt dreadfully bad because a man from St. Louis had sympathized with him about the crookedness of San Francisco's government."

"I don't want to say anything about St. Louis in connection with crookedness, because one of the best friends I have got in the world comes from St. Louis and I don't particularly care to say anything about the crookedness of any other city, but when I read in the New York Tribune that the merchants here had refused to buy municipal bonds, because they were afraid to trust the expenditure to the people, I was reminded of something that happened a good many years ago up at Sacramento."

"I was working on a newspaper, of which John D. Murphy was the editing light. One Sunday Paddy and I went out to Golden Gate Park and we didn't walk very far before we ran into some sand hills, and I said: 'Why don't they take away these sand hills and plant some trees and put some grass here for the children to roll around on?' Paddy said: 'The only way to have an allowance of \$30,000 a year to take care of the Park and the year to buy the water they use and they cannot reclaim any more than is planted now.'"

"So Paddy and I got busy and I went to the Legislature and he introduced a bill to allow the Supervisors of San Francisco to increase the appropriation for Park purposes to \$100,000 a year and even more. In those days they couldn't spend their own money without the Legislature, which was always 'honest' in their perception. Paddy went to me to bring some people up and help boost the bill through, because there wasn't any money behind it, and it took a good deal of persuasion to get a move on. A Legislature for purely public-spirited people. So I went up with some other people and we met a committee and we made some little talks, and then an old chap with a goatee got up and he said: 'I'm talking about tax eaters, and he said he didn't think it was right to give any more money to the public funds because the people were not to be trusted. A man who was with him then said: 'That reminds me of Hans and Katrina, and the committee wanted to know what about Hans and Katrina, and the man told this story:'"

## ABOUT HANS AND KATRINA.

"Hans and Katrina were engaged to be married. Hans worked very hard, and so did Katrina. They both saved their money. One day Hans took Katrina to a place down near a beautiful river and showed her a lot that he had bought and a cottage on it, that he had built, and there was a little path from the cottage down to the gate and a pretty walk along the edge of the river, and when he showed her the walk along the edge of the river Katrina said down a d began to cry very hard. Hans tried to comfort her, but she wouldn't stop crying. 'Oh, Hans, I can never marry you; it won't do.' Then Hans asked her to tell him 'why.' They were engaged and they were fond of each other and he had a nice house, and she said: 'Oh, yes, he was married by and by some babies come, and some day when you are at work mine little Katrina she will run down to the garden gate and will follow the path to meet you, and she will fall into the river and get drowned.' I remember when we made a fight for the little cobble stones. There are worse men than Deacon, but he came from Missouri, I believe, or his partner did, and never got over it."

"I know that you are here to congratulate me as one of the few Californians that ever saved money enough to get away from New York, and I appreciate it."

Among the many who spoke or sang or in some way contributed to the entertainment of the evening were Acting Governor Alden Anderson, Supreme Justice F. W. Henshaw, Judge Irad Sargent of Monterey, John W. Mitchell of Los Angeles, J. C. Livingston of Stockton, O. A. Hale of San Jose, Fred S. Knight, James H. O'Brien, Estimaster Arthur Fleck, Charles J. Hegarty, Judge William P. Lawlor, John E. Lunn, Dr. Park Goodfellow, Louis Josenhath, Deputy Collector of the Port of William Hamilton, Dr. C. D. McGittigan, T. F. Bonnet, H. F. Taylor, Judge Frank Kerkigan, Warren R. Porter of Watsonville and Senator W. C. Ralston.

The participants in the occasion numbered over sixty, and the supper lasted till well into the hours of the morning, enlivened by a thousand humorous stories and amusing experiences.

## NO ALARM.

WASHINGTON, November 18.—No alarm is felt at the offices of the Panama Canal Commission on account of the recent disturbances on the Isthmus followed by the landing of marines. The members of the commission have been advised fully concerning the trouble and to-day received a cablegram from General Davis, commander of the canal zone, saying that everything is now quiet.

# WANT TO DEEPEN HARBOR.

Board of Trade Will Take Matter Up Next Week.

There appears to be great interest among manufacturers in Oakland at the present time and the Board of Trade is in communication with several firms or corporations who are contemplating locating here.

The great drawback has been the lack and depth in the main channel to allow large vessels to come up into the harbor.

Chairman Burton of the Rivers and Harbors Committee of Congress has summoned the members of that committee to hold a conference and if possible draft a bill to be presented to Congress at its next session. This bill will be drawn up before the convening of Congress.

Senator Perkins and Congressman McLachlan are two of the California members on that important committee and will have much to do with an appropriation for the deepening of Oakland harbor. Senator Perkins, Congressman Knowland and the Committee on Harbor and Waterfront of the Oakland Board of Trade will confer early next week and determine upon the requirements of this harbor and the appropriation that will be necessary to complete the improvements.

At the present time the consensus of opinion of these gentlemen is that the main channel should be deepened from the Bay of San Francisco to the mouth of Brooklyn Basin to a uniform depth of twenty-five feet at low water. This will mean that vessels drawing eighteen feet of water can enter our harbor with safety at low tide. Many of the property owners have agreed to deepen their wharves to the main channel just as soon as the needed improvement is made. There never was a time when so many inquiries for river front property were made as at present and if the government will deepen the channel several factories stand ready to locate here.

# ENDEAVORERS HOLD LARGE BAZAAR

A successful bazaar was held at the Market Street Congregational Church last evening by the Christian Endeavor Society. The auditorium was well filled to hear the following program, every number of which was heartily enjoyed by the large audience.  
The large selections—Metropolitan Orchestra; vocal solo, "In the Heart of the Mighty Deep," M. Williams; piano solo, "March Militaire," by Schubert; Curtis' musicology, "Her First Visit to the Butcher," Mrs. Edith O. King; piano solo, "March Militaire," by Schubert; Pauling, W. R. Beatty, orchestral selection.  
After the program the audience entered the lecture room which had been beautifully decorated for the occasion with flags, lanterns, pictures, flowers and evergreens.  
The various booths representing different nations, which had been artistically prepared and which were liberally patronized, were under the care of the following committees:  
Fancy work booth—Misses Marion Westlund, Annie Chalmers and Mae Beaudin.  
Ice cream booth—Misses Edna Beach and Mabel Nickerson.  
Candy booth—Misses Grace Calk, Grace Brown and Grace Griffiths.  
Coffee booth—Misses Sude Pascoe and Sadie Calk.  
Lemonade booth—Misses Elsie Campbell and Sue Calk.  
Gypsy booth—Miss Marguerite Lemmer.  
The same booths under the same management will be open this evening and an entirely new program will be rendered. Doors open at 7:30; program at 8.

TROUBLE IN THE PANAMA CANAL ZONE IS AT AN END.

PANAMA, November 18.—General Huertas, the War Minister, resigned today, and President Amador, by a decree, accepted his resignation, leaving Huertas the rank of general, unattached but with a salary which is equivalent to a pension. The army will not be disbanded just now. General Yuandía, Secretary of the War Office and an old veteran, has been appointed to the supreme command of the troops. Everything is quiet now. The censorship of telegraphic messages has just been suspended.

# EIGHTEEN HOURS IN OPEN BOAT

NEW YORK, November 18.—After eighteen hours in an open boat six men of the Philadelphia schooner Emily A. Naylor were rescued by the schooner Grenada, which arrived here to-day. The Naylor was abandoned about 300 miles from Bermuda after a hopeless struggle with the hurricane, which passed up the coast last Saturday night. The crew had been drifting about for eighteen hours when sighted by the Grenada. They hurried departed left no time to provision the lifeboat and the men were in desperate straits when the Grenada came to their assistance.

MISS THOMPSON THE BRIDE OF FRANK BARNET.

MR. AND MRS. FRANK BARNET.

Last evening at 5 o'clock in a cozy  
home which had been specially erected  
by the groom, at the southeast corner  
of Eighth and Fallon streets, the words  
of Eighth and Fallon streets, the words  
were said which made Frank Barnett  
and Miss Minnie Thompson, husband  
and wife.

The ceremony was performed in the  
parlor of the new home and was wit-  
nessed by only the immediate relatives  
of the bride and groom.

The officiating clergyman was Rev.  
Dr. Francis X. Morrison, assistant rec-  
tor of the Church of the Immaculate  
Conception.

The groom was without a best man  
and the bride stood beside him without  
the customary attendance of brides-  
maid or maid of honor, the intent of  
the contracting parties being to have  
the nuptials of quiet, informal, but  
solemn character.

The scene was a charming one for  
nuptials. The parlor, which formed the  
setting, had but newly come from the  
hands of the artist and the artist was  
none other than the groom himself,  
because Mr. Barnett, before he engaged  
in his present profession of stenog-  
rapher for Justice Courts of Alameda  
County in the matter of preliminary  
examinations, was a fresco artist with-  
out a superior in this section.

It was but reasonable to assume that  
in decorating the abode over which his  
bride was to preside, the groom's taste  
and skill found inspiration never ex-  
perienced before. Such was really the  
case, because, when Seuburger called  
to garnish the interior with the beau-  
ties of the parterre and conservatory,  
he exclaimed, "What can I do here,  
where the artist groom seems to have  
left nothing undone."

Despite this fact, the artist in flow-  
ers disposed palms in nooks and angles,  
fountain grass, about the chandeliers,  
pink carnations upon brackets and  
flowers in various receptacles and the  
effect was charming in the greatest  
degree.

The central figure, of course, in this  
beautiful home setting was the bride  
who was attired in a gown of white

PUTTING IT STRONG.

But Doesn't It Look Reasonable?

This may read as though we were  
putting it a little strong, because it is  
generally thought by the majority of  
people that Dyspepsia in its chronic  
form is incurable or practically so.  
But we have long since shown that  
Dyspepsia is curable, nor is it such a  
difficult matter as at first appears.  
The trouble with Dyspepsia is that  
they are continually dieting, starving  
themselves, or going to opposite ex-  
tremes, or else deluging the already  
overburdened stomach with "bitters,"  
"after-dinner pills," etc., which in-  
variably increase the difficulty even if in  
some cases they do give a slight, tem-  
porary relief. Such treatment of the  
stomach simply makes matters worse.  
What the stomach wants is a rest.  
Now, how can the stomach become  
rested, recuperated and at the same  
time the body nourished and sus-  
tained?

This is a great secret, and this is  
also the secret of the uniform success  
of Stuart's Dyspepsia Tablets. This is  
a comparatively new remedy, but its  
success and popularity leaves no doubt  
as to its merit.

The Tablets will digest the food any-  
way, regardless of condition of stom-  
ach.  
The sufferer from Dyspepsia, accord-  
ing to directions, is to eat an  
abundance of good, wholesome food  
and use the tablets before and after  
each meal, and the result will be that  
the food will be digested no matter  
how bad your Dyspepsia may be, be-  
cause, as before stated, the Tablets  
will digest the food even if the stomach  
is wholly inactive. To illustrate our  
meaning plainly, if you take 1,800  
grains of meat, eggs or ordinary food  
and place it in a temperature of 98 de-  
grees, and put with it one of Stuart's  
Dyspepsia Tablets it will digest the  
meat or eggs almost as perfectly as if  
the meat was enclosed within the  
stomach.

The stomach may be ever so weak,  
yet these tablets will perform the work  
of digestion and the body and brain  
will be properly nourished, and at the  
same time a radical, lasting cure of  
Dyspepsia will be made because the  
much-abused stomach will be given to  
some extent, a much needed rest. Your  
druggist will tell you that of all the  
many remedies advertised to cure  
Dyspepsia, none of them have given so  
complete and general satisfaction as  
Stuart's Dyspepsia Tablets, and not  
least in importance in these hard times  
is the fact that they are also the  
cheapest and give the most good for  
the least money.

crepe silk, the bodice of which was  
elaborated with rare and point lace  
while the skirt fell in graceful folds,  
finished on the train. She was a picture  
of radiance and happiness, a fact which  
was impressed on every present.

After the ceremony, there was a  
bridal feast and at the bride's table  
were seated the groom's father, John  
Barnet, Mr. and Mrs. M. B. Noblett,  
Mr. and Mrs. John Z. B. rnet, Edward  
Barnet, Mr. and Mrs. Muriel de Cam-  
mar, Margaret L. Lewis and Rev. Dr.  
Morrison.

The health and prosperity of the  
groom were drunk and kindly and elo-  
quent sentiments were proposed by  
all around the bride and in a special  
manner, by Rev. Dr. Morrison who  
spoke eloquently upon the home as the  
corner-stone of the nation and of the  
domestic happiness which made it  
heaven on earth.

After the marriage feast, there was  
a reception which was attended by  
people prominent in every walk of life  
in this community during which the  
heartiest of congratulations were  
showered upon both the bride and  
groom.

Mr. and Mrs. Barnett were the recip-  
ients of many wedding gifts, the vari-  
ety, beauty and appropriateness of  
which were the marvel of every guest.  
Among them was a solid silver set of  
spoons from the father John Barnett  
and Mrs. Nell Noblett, the sister of  
the groom, the latter of whom is now on  
a visit in New York. Accompanying  
the gift was a telegram of congratula-  
tion, also handsome cut glass from  
John Z. Barnett and wife.

The chief and attaché of the District  
Attorney's office comprising J. J. Allen,  
Phil N. Walker, D. C. Owens,  
Brown, W. H. L. Hyne, D. C. Owens,  
Miss Alice Richardson and H. V. Herbert  
sent a case of silver knives and forks.

Secretary V. H. Metcalf remembered  
the couple with a richly carved fruit  
dish.

Among the donors of the other arti-  
cles in the display were people of dis-  
tinction in many learned professions in  
all the cities around the bay.

Frank Barnett has sent all his life  
in Oakland. He is a young man of va-  
ried talents, excellent judgment, energy  
and thrift, and enjoys a standing in the  
community second to none of his age  
and experience.

Mrs. Frank Barnett has resided here for  
several years. She is formerly Miss  
Minnie Thompson, daughter of a miner  
in Nevada, now deceased, who, in his  
day, was counted among the great men  
of that region of silver; whom energy,  
enterprise and good luck made independ-  
ent. She has all the charms  
which make young women welcome in  
exclusive social circles, and will preside  
in her new home with queenly grace  
and judgment.

Mr. and Mrs. Barnett have gone on a  
wedding tour to Los Angeles and will  
be absent several days.

Among the invited guests were: Mr.  
and Mrs. J. Z. Barnett, J. Barnett, Mr.

DUCK PONDS  
ARE THE ISSUE

In regard to certain duck ponds be-  
tween Newark and Alameda, over which  
suit has been begun by W. G. Edmonds  
of Alameda against Sebastian Ligouri,  
the latter in an answer filed to the com-  
plaint to-day states that while Edmonds  
at one time had a lease of the land he  
has failed to occupy for the past  
six years and besides has failed to carry  
out his part of the contract entered into  
and make the improvements upon the  
premises that he promised.  
Attorney Kinsell in making a statement  
for Ligouri to-day stated that Edmonds  
had a ten-year lease on the ponds, but  
was to sink a well, erect a windmill and  
make levees which he has failed to do.  
That all the portable improvements he  
made he carried off after the season was  
over and he has not fulfilled his obliga-  
tions. On the other hand Edmonds has  
not been near the ponds for six years and  
anybody and everybody has shot over  
the ground.

# SMASHED HIM IN FACE.

**F. R. Clough Caught With Another Man's Wife.**

While strolling with Mrs. J. H. Werly of 856 Market street, F. R. Clough unexpectedly ran into the husband of the woman who was armed with a pick handle. What happened to the couple is not known. He received the pick handle in the face and went down but not out.

He immediately hunted up a policeman and secured the arrest of the husband on the charge of assault with a deadly weapon.

# SHADOW OF THE GALLOWS

The laws of California which prevent a wife from testifying against her husband will be the cause of his murder.

These are the words that pretty Laura Campbell spoke to her attorney one day before she was shot. Yesterday she died in the Receiving Hospital while she was in the midst of a sentence accusing her husband, Lem Campbell, of her murder. She was still bound to the man who shot her by an interdictory decree in divorce.

The full weight of the tragedy and its prospective expiation on the gallows has fallen on the husband and he is much depressed today. He vainly calls for the spirit of his murdered bride to return to the beautiful day which once enshined it.

The saddest words that fall on his ears are: "What might have been" if he had acted differently, for he loved the woman. The frail and petite figure of the woman he murdered lies at the morgue. An inquest will be held Saturday evening to determine the cause of death. She was not without sin but this does not justify the husband's crime. The autopsy reveals the fact that her husband's jealousy was not without cause. The preliminary examination of Campbell will be held next Monday.

# JUMPED FROM A HIGH WINDOW.

SAN FRANCISCO, Nov. 17.—Antonio Rumbace, aged 29 years, committed suicide today by jumping out of a window of the Adelaide House on Howard street. His skull was crushed. He is believed to have been insane.

# VOTES ON THE WATER QUESTION

More than 2,000 ballots on the water question have been received by the Special Water Committee in response to the invitations sent out to the voters to express their preferences in the Bay Cities or underground proposition.

The voters will be canvassed to-morrow morning.

**NOTICE OF POSTPONEMENT.**  
On account of the death of one of our charter members, Mr. F. Senram, the Ladies' Section of the Oakland Turn Verein has postponed its Farmer Ball to March 22d. THE COMMITTEE.

# YOUNG MAN IS KILLED.

**Stockton Officers Believe it is a Case of Murder.**

STOCKTON, November 17.—Murder and robbery, committed some time since Monday last, was revealed this morning when Chas. Horton, a Standard Electric Company patrolman, found the body of a youth, less than 20 years of age, lying on the ground close to one of the Standard poles in a ploughed field about two miles southwest of Stockton, a knife wound in the throat and his pockets inside out.

The boy was dressed in a cheap but fairly new suit of black clothing, with a clean soft striped shirt and blue cotton underwear. His hair was dark brown, and he had double front teeth. Around his neck was a white handkerchief, and in a pocket was a hemstitched white handkerchief, with a leaf embroidered at each corner. A sack of smoking tobacco and some cigarette papers were also found, and upon a leaf torn from a memorandum book which had come from H. L. Tripp's clothing store, No. 509 Fourth street, Santa Rosa, was written in pencil, Bert Kimber, Lodi, Cal.

# FRANK SENRAM IS DEAD.

Frank Henry Senram, the pioneer Broadway shoe merchant, died this morning at his residence, 1731 Fourteenth street after a severe illness. He was born in Oldendorf, Germany, 63 years ago, but came to this country soon after he had attained his majority. He had been engaged in business in this city for the last thirty-five years, during which time he created a large circle of friends and won the esteem of the business community.

He leaves a widow, Minna Senram and three sons, Henry, Otto and Frank Senram, and two daughters, Mrs. W. Baumgart and Mrs. Henry Gier.

The deceased was a popular member of the Oakland Turn Verein and also of the Tecumseh Tribe No. 62, Improved Order of Redmen.

The funeral services will be held Sunday afternoon at 2 o'clock from Germania Hall, on Webster street, between Sixth and Seventh street.

The interment will be in Mountain View Cemetery.

EL PASO, Texas, November 17.—Senator N. W. Williams of Nevada, and William B. Smyth of California this afternoon withdrew from the race for president of the Briga Congress in favor of Governor Parke of California, who will probably be elected unanimously.

# CAPTURE OUTER FORTS.

**Japanese Are Now Getting Close to Port Arthur.**

WASHINGTON, November 17.—Consul-General Fowler to-day cabled the State Department from Chefoo that the situation at Port Arthur is extremely critical, the outer forts having fallen into the possession of the Japanese.

He also states that three Japanese torpedo-boat destroyers are lying outside of Chefoo harbor and that the Russian crew of the torpedo-boat destroyer, destroyed yesterday, are transferring their arms and supplies to a Chinese cruiser which is posted in front of the Russian consulate.

# A. C. DIETZ LEFT LARGE ESTATE.

The petition for special letters of administration on the estate of the late Alfred C. Dietz, the capitalist, made by his widow, Sarah J. Dietz, was granted by Judge S. P. Hall this morning and she was given the right to take charge of the property until such time as other provision could be made.

The deceased died in Ventura county on the 10th of this month but was a resident of this city and leaves realty valued at upwards of \$200,000. He was the owner of the Dietz Opera House and other realty in this city and Emeryville besides lands in Ventura and Los Angeles counties. He also leaves personal property in addition to the amount of \$70,000.

# STOLE A MARCH.

**How the Sheriff Cleverly Captured a Bad Man.**

SAN DIEGO, November 17.—Lieutenant-Governor Barreto, of Lower California, has reported to the Mexican Consul here the alleged facts of an occurrence, which may occupy the attention of the two governments. A few days ago Chief of Police Hammel of Los Angeles and a detective brought in Juan Puebla, who has been hunted for six years for the alleged murder of a man named Garcia, in Santa Monica canyon.

The officer stated that the man had been decoyed to this side of the line and arrested at the points of guns. The Lieutenant-Governor has complained that Puebla was captured by hired Mexicans, disarmed, heavily manacled and delivered to the officers on the Mexican side of the boundary.

The action on the part of the Mexican government has been taken by Lieutenant-Governor Barreto and by Acting-Governor Romero. The Lieutenant-Governor states that he does not wish to be classed as protecting criminals who have fled below the line, but that he does want it known that Mexican law has a right to be respected and that treaties with Mexico must be kept as well by officers of the United States and of Los Angeles as it is by any one. The Mexican officials have arrested the leader of the gang which delivered Puebla to Chief Hammel.

# KILLED IN AUTO WRECK.

**"San Toy" Actress Also Nearly Lost Her Life.**

LOS ANGELES, November 17.—As a result of an automobile accident which occurred in the suburbs of the city at an early hour this morning, Humphrey Praed, assistant general manager of the San Jacinto Land Company of Riverside, California, is dead and Miss Mina Rudolph, leading lady of the "San Toy" Opera Company, and C. S. Fry, chauffeur, are seriously if not fatally hurt.

The accident occurred after the conclusion of the night performance at the Mason opera house last night, where Miss Rudolph is playing. Praed called for Miss Rudolph after the theater had closed and took her for a ride in the country. Returning several hours later, Praed took charge of the machine, and coming into the city at a high rate of speed, turned the machine from the road near the city limits and ran it over a ten foot embankment, overturning it and pinning the occupants beneath. Praed was instantly killed and Miss Rudolph and Fry were so seriously injured that they were unable to go for assistance.

## KNOWN IN SACRAMENTO.

SACRAMENTO, Nov. 17.—Miss Mina Rudolph, leading woman of the "San Toy" Company who was injured in Los Angeles this morning, is a native of Sacramento. She is the sister of Mrs. Edward Cadwallader, the wife of the late Edward Cadwallader, who was once a prominent citizen of this city.

The accident happened near the tracks of the electric road and the occupants of a work train passing by the spot some time later discovered the overturned car. Praed was dead when picked up. Miss Rudolph and Fry were placed aboard the train and brought hastily to this city. At the receiving hospital it was found that Miss Rudolph was suffering from concussion of the brain and other injuries of a serious character. It is feared that she may also be injured internally. She was removed this morning to the Angelus Hotel where she was staying. The attending physicians state that she will recover. Fry sustained only minor injuries.

Praed was a young man 28 years of age and unmarried. He is prominent in the city in which he resides, and his mother, Mrs. Campbell Praed is a well known literary woman. The family is a wealthy one; the members of which reside in England.

## DIED.

## Hunting For An Issue.

With the first return of their wits after the tremendous defeat which they have suffered, the Democratic leaders begin to talk about the election of 1908. The first thing they propose to do is search for an issue.

What fatuity! Issues are not made by caucuses or conventions. They are made by events and conditions. The logic of circumstances presents the issue, parties can only define their attitude toward it. Naturally this attitude is largely determined by the general code of principles advocated and the past record of the parties on similar or collateral questions.

The Democrats seem to have gone daft on fetiches and soothsaying. Apparently they think success in elections can be only won by choosing a mascot or finding a luck penny. They are now searching for an issue much in the same spirit that actuates a native of Dahomey when he hunts to get a snake's tooth or a rabbit's foot. They seem to have forgotten that party success is simply a means to an end and not the end itself, and that the issue presents itself as policies develop. No issue can be selected four years in advance and placed in cold storage till ready to use.

The Democrats went into the last campaign without an issue, and with a bad record. It did not even quarrel with the Republican party on the money question, only asked that their past errors be forgiven. They drew no sharp line on the tariff. Even the position they took in regard to the Philippines was hazy and academic. In default of a real political issue they attempted to make a personal one of the President. It was the resort of desperation, and was worse than foolish, for Theodore Roosevelt was perhaps the very worst man they could find in the country to be assailed as a public enemy. If the Democrats desire to be respectable—and they cannot be strong unless they are respectable—they must quit seeking pretexts and trying to manufacture issues. They must have abiding principles, which they must endeavor to apply in legislation and administration. When they go around hustling for issues as a gutter-snipe seeks cigar stumps, they make themselves ridiculous.

Colonel Watterson has a three column double-leaded editorial in the Louisville Courier-Journal moralizing over the result of the election. Chimmie Fadden could express it all in one sentence: "What t'ell!"

The completeness and accuracy of THE TRIBUNE'S election returns this year have never been equalled or approached in this county. On the day after election, THE TRIBUNE gave the vote of the highest candidates for Elector on the respective tickets as follows: Republican, 19,080; Democratic, 4,395. The correct figures as revealed by the official canvass are as follows: Republicans, 19,065; Democratic, 4,429. That is, THE TRIBUNE'S unofficial returns the day after election were 15 votes out of the way on the head of the Republican Electoral ticket, and 34 votes out of the way on the Democratic ticket. On all the other candidates voted for THE TRIBUNE'S report was equally accurate. No other paper was anything like so accurate. But it is THE TRIBUNE'S way to be ahead.

Governor Pardee received a graceful and well-merited compliment when he was elected president of the Irrigation Congress. In a sense his election is a compliment to California. Governor Pardee has devoted much study to irrigation problems, especially since taking the gubernatorial office, and is well qualified to deal intelligently with the subject. He is also a good presiding officer. The Congress and the Governor are alike to be congratulated.

It is rather a come down from being candidate for President of the United States to taking a snap from Tammany Hall to turn an honest penny, but Judge Parker may be excused on the ground that he is out of a job and needs the money. Still, one instinctively wishes the Judge had felt it due his dignity to refuse the crumbs of patronage thrown at him. It is hard to imagine Grover Cleveland doing anything of the kind. We may dissent as much as we please from the ex-President's political views, but we must acknowledge that he has scrupulously respected the dignity of the high office he twice held and has never failed to live up to the character of a retired Chief Magistrate of a great nation. But alas, Judge Parker appears to be made of different stuff.

The Sacramento Union prints a long editorial on cabinet possibilities. Many of the statements are matters of common knowledge. As to the others, quoniam sabe. We fancy Theodore Roosevelt has not consulted anybody in Sacramento in regard to making up his cabinet. We all know that Secretaries Hay and Metcalf are to remain in the Cabinet, and that Mr. Cortelyou is to return to it. It is also generally understood that Secretary Taft will remain at the head of the War Department till there is a vacancy on the Supreme Bench, which is likely to occur soon, as Chief Justice Fuller contemplates retiring on account of age and delicate health. It was popularly understood when Paul Morton accepted the Naval portfolio that his stay in the Cabinet would be temporary, and in official circles it has been expected that Mr. Metcalf would take charge of the Navy Department after next March. There is, however, a great deal of guess work about the whole matter, and while everybody is privileged to speculate, the speculations should not be taken too seriously. President Roosevelt has a way of doing things in his own fashion that is embarrassing to prophets and prognosticators.

A good many people share Professor Howison's belief that there are too many women at the State University. The matter might be remedied if some of the old women would get out of the faculty.

## Flimsy Expert Testimony.

The fight in San Francisco over the Dolbeer estate is again proving the small credence that is to be given so-called expert testimony. Three professional alienists who had never seen Miss Dolbeer pronounced her insane in answer to hypothetical questions embodying a recital of certain alleged acts and peculiarities of the deceased. Some of these acts and peculiarities in dispute are really matters of fact, yet we have alleged experts testifying positively to a hypothesis largely based on debatable premises. Now Miss Dolbeer moved freely among intelligent and observant people during her lifetime, possessed a keen knowledge of business and clear ideas on all current subjects, and nobody among her associates suspected her of mental derangement till she committed suicide and left the bulk of her large fortune to an alien in blood, who had been her friend, confidante and companion. She exhibited an aversion amounting to detestation of her blood relatives that she inherited from her father, consequently her act in cutting them off from her estate was perfectly natural. She had an antipathy to marriage, but many other women of sane and brightest intellect have also exhibited intense dislike to wedlock. She was a prey to loneliness and was pestered by fortune-hunting suitors and blood-sucking relatives, therefore her abandonment of life as not-worth living is no proof

of insanity. But if she were deranged when she threw herself from the window, all the circumstances go to show that she acted under the impulse of temporary aberration. Every act of her life is susceptible of a common sense explanation directly contrary to the theory set up by greedy relatives whom she detested in life, yet a lot of paid experts calmly dismiss the central facts and settle matters to the satisfaction of their employers on a hypothesis. Paid experts on the other side will contradict their testimony positively, each alienist testifying in favor of the side that employs him. This fact alone should be sufficient to discredit expert testimony, especially testimony based on hypotheses drawn from the testimony of witnesses. In such cases, the attorney in framing his hypothetical questions assumes that the evidence given by the witnesses for his side is all true and uncontradicted. Thus the court is asked to accept the hypotheses of paid experts based on a partial statement of disputed facts. It is all very absurd—huribug, if not worse.

## THE OAKLAND POLICE SCANDAL

Another member of the Oakland police department has been dismissed for robbing stores. This makes the fifth of an organized gang of policemen to whom the wholesale robbery of Oakland business houses has been traced. In all, seventeen stores were robbed by the gang. In addition, it is alleged that prisoners have been systematically robbed after being placed under arrest.

Such a condition of affairs is remarkable; when the guardians of property turn robbers demoralization must result. But the condition at Oakland is no more remarkable than that uncovered at Minneapolis a short time ago. In that city the police peddled protection to gamblers, pickpockets, burglars and the like. There were even prices set upon the various forms of vice; a gambler paid so much, a pickpocket so much, and so on. The police ever took pains to prevent the several departments of crime becoming overcrowded; the criminal who paid was guarded against ruinous competition. Thus the police exercised their authority to drive criminals who were not on the "inside" out of Minneapolis, while the same authority made those who divided their spoils with the police safe from arrest. The crash that came eventually dragged the name of many prominent Minneapolis politician and official into the mud.

These incidents show how important it is that the work of the police department of every community be made the subject of careful scrutiny. The police should be above suspicion. The first indication that members of the department have turned robbers, as at Oakland, or that they are peddling out protection to criminals, as at Minneapolis, should be met with prompt and thorough investigation.—Sacramento Union.

## HINTS FOR THE LADIES

Don't drink with meals. If food is eaten slowly and well masticated, it will soon be possible to eat without drinking, and the meal will digest far better than when swallowed and washed down with liquids.

We none of us eat as much fruit as we should, and if grapes and apples were always substituted for heavy pudding, pies and French pastries, most of the beauty culturists would have to retire from business.

According to French papers the surgeons are now dressing wounds with silver leaf. The silver is simply placed on the wound or ulcer and as it sticks closely to the surface a little cotton soaked in colloid is sufficient to keep it in place. The effects of this sheet of silver are said to be very remarkable.

Rubbing slices of lemon on the temples and back of the neck will soothe some kinds of headache. Another way of taking lemon for a bilious headache and one said to be a cure, is to put a teaspoonful of juice into a small cup of black coffee. It is far better, however, to use lemons freely at all times and so keep the liver active and avoid bilious tendencies.

In massaging the face the nose needs special attention. It must be kept free from blackheads and the nostrils must not be allowed to become too wide. Use the rotary massage movement daily about the lower part of the nose, after first applying cold cream. This will tend to reduce the thick cartilage. Never use a downward movement in massaging the nose. Always rub up. To make a red nose white massage vigorously along the leading nerve of the nose at each side. Use the tip of the finger, start at the bottom and rub up the nose on either side and then under the eyebrows. Following the nerve in this way is sure to relieve congested circulation, which is often the secret of that unpleasant redness which comes to the nose. If the nose is extremely red, in addition to treating the nerve massage the temples and cheeks, using a brisk, vigorous movement. This we do in order to take the blood away from the nose. In treating the nose be careful never to touch it with water. Instead, bathe it night and morning with cold cream.

## Working Overtime.

Eight hours laws are ignored by those tireless, little workers—Dr. King's New Life Pills. Millions are always at work, night and day, curing indigestion, biliousness, constipation, sick headache and all stomach, liver and bowel troubles. Easy, pleasant, safe, sure. ## "In Everything Give Thanks"

Centuries have passed since this good advice was first given to the world, yet it was never more appropriate than on the eve of Thanksgiving, '04. Every American, especially every resident of this section of the Union has cause to give thanks, not for one blessing, but for many. Let us show gratitude not only to the Giver of all good things, but to each other, to ourselves. All can afford to do this, to be generous; and as the great gift-giving festival approaches, let this feeling of thanksgiving take a material form. The Lace House will be found a most happy medium through which to do it.

### Seasonable Walking Skirts

Stylish skirts that just clear the sidewalk are the kind now in demand; any grade and shade in correct Walking Skirts can be found in this department at prices that are right.

Prices are \$1.50, \$2.75, \$3.00 and up to \$15.00.

AT \$2.75—Walking Skirt in good mixtures, navy blue and black, 5 and 7 gores, with flare, strap seams and tailored buttons.

AT \$3.75—Good variety of Walking Skirts in all wool mixtures, blue and white, blue and green, gray and tan; specially good values in 7 gored kilt effects.

AT \$5.50—Walking Skirts of fine light-weight worsted and chevrons, 7, 9 and 11 gored, strictly tailored kilt effect; colors are blue and white, black and white, brown and white mixtures; solid blue and brown chevrons; a wide variety at this price.

AT \$8.50—Stylish Walking Skirts in conventional and mannish mixtures, also in navy, brown and black; the latest kilted effects with exquisite tailoring.

ALL SHADES IN GOOD YARNS.

### The Waist Section

is busy these days. The recent fall of the thermometer has caused hundreds to seek warmer waists, and the biggest percentage have found waist-satisfaction here. No wonder—

Several splendid lines of ladies' all-wool flannel waists, newest details, every fold shows style . . . . . \$1.00, \$1.25 \$1.50  
Higher grades, more elaborately trimmed, up to . . . . . \$3.95

McCALL PATTERNS ARE FAULT-LESS.

### Fancy Neckwear

—more of it has just been added to the display, and to say it surprises us is to state it mildly.

Details are impossible in an advertisement; a dozen dainty details to each piece of neckwear. Shapes are novel, material is excellent, and for ornamentation everything has been drawn upon—lace, embroidery, insertings, jewels, beads, French knots, fancy braids and stitching, crocheted rings, velvet, ribbon, silk, satin—and the arrangement of colors is superb. There is no better display anywhere around the bay.

Prices . . . . . 20c, 25c, 30c and up to \$2.50

PRETTY FUR SETS FOR CHILDREN

### This is Fur Time

—and when you see our display of boas, scarfs and peleries you'll think the Lace House is the place to buy furs. The entire stock was bought before prices went a-soaring, so we can prate some about the values.

Even for the modest dollar you will find a good electric seal scarf, finished at ends with fur tails.

From \$3.50 to \$23.50 there are some splendid furs—stone marten, Arctic fox, opossum, brown fox, etc., all exquisitely finished, and extra value at the prices. Lace House fur values cannot be duplicated.

### More Specials in Trimmed Hats

The millinery section has been booming for the past week, and indeed it shall keep so. The special offers in trimmed headwear made such a hit that we have added new lines—better to sell at special prices while the season is at its height, than sell at radical reductions when the hats are of little use to you.

SPECIAL AT \$5.00.

Beautiful trimmed hats that were marked \$6.95, \$7.50 and up to \$9.50

SPECIAL AT \$7.50.

Elegant dress hats that were priced \$10.50, \$11.50, \$12.50 and up to \$15.00

SPECIAL AT \$9.00.

Magnificent Dress Hats that were priced \$15.00, \$16.00, \$17.00 and \$18.00.

All these hats were rightly priced at former figures, but season being backward prompts an early clearance.

WARM, BRIGHT COMFORTERS  
FROM \$1.09

### Elegant Evening Coats

These stylish garments come in black, white, champagne, light tan, burnt onion; some have capes, others are trimmed with handsome braids and all suggest the finishing touches of French modistes.

Prices . . . \$25.00, \$28.50, \$35 and up to \$55

SMARTEST OF CAPS FOR BOYS

### New Veilings

This department has just received its holiday lines of novelty and staple veilings—a good time to choose a good veil is now. Made chiffon veils in pink, black and white, brown, blue, white, lavender, green, burnt orange, tan, champagne; 1 1/2 yards long; ornamented with chenille dots, velvet dots, embroidered figures, hemstitching, etc. . . . .

. . . . . 50c, 65c, 75c, and up to \$2.00

Good assortment of bed-sets from \$3.00 up to \$11.95. They come in white, ivory and Arabian, and the higher grades are ornamented with hand made motifs.

FANCY SWEATERS FOR LADIES

### Some New Curtains

Plenty have arrived during the past few days; a couple of lines deserve special mention.

The new Fil-de-Fer (iron thread) curtain is one of the most popular in antique, art nouveau and other patterns; two specially good numbers come in ivory and champagne; are exceedingly pretty, and are priced . . . \$4.75 and \$6.75 pair

Other Fil-de-Fer curtains from \$3.00 pair.

New Point de Luxe curtains in two-toned Arabian net with ivory cord . . . . . \$4.50, \$5.00 and \$6.00 pair

## BURGLAR MURDERS OFFICER.

Desperadoes Escape After  
Seriously Wounding  
Another.

DETROIT, Nov. 18.—Patrolman Jean Daley was shot down and murdered in cold blood about midnight by one of two burglars whom he detected at work in the rear of William Dietrich's store at No. 75 Michigan avenue and Herbert H. Pickett, special officer for the Michigan Central Railroad, was shot through the abdomen and probably fatally injured when he ran to the policeman's assistance.

The murder occurred in the heart of the business district of Detroit, in an alley back of the corner of Michigan avenue and Wayne street.

Patrolman Daley's revolver was found within a few feet of the store window which the burglars had partially opened. He had evidently turned to follow the assailants after he had detected a small crowd through the door as he told on his knee a few yards off in a direction which his assailants had taken.

The patrolman's cry to help and the noise of the shooting awoke the neighborhood and the desperadoes pursued by a constantly increasing crowd, ran westward, zigzagging between Lafayette and the alley that paralleled the avenue half a block northward. Officer Pickett was a leader in the chase, having been within a block of the scene when he heard the killing and the Patrolman Daley.

Pickett had followed the murderers nearly four blocks when they stopped near Lafayette and Third streets and shot him through the body. The bullet pierced his lung and he was killed.

It is supposed that the purpose of the burglars was to rob a jewelry store located next door. All description agreed that one of the men who was with the other was a negro. One colored man was arrested on suspicion within an hour after the murder.

## ANNUAL BAZAAR A SUCCESS.

FRUITVALE, November 18.—Last night opened the great annual bazaar of the Congregational Church. It takes place in the armory on the corner of Fruitvale avenue and Sixteenth street. The interior of the building is adorned with handsome booths wreathed in smilax and acacia. Decorations of various colors and designs were everywhere in evidence and the whole hall has a beautifully festive appearance.

The bazaar was opened without any formal ceremony and was very well attended. So fast did the articles sell that some of the booths were cleared out before the evening was over and had to be replenished from the store room. There was a very brisk business at the candy and ice cream tables, and the famous side show was well patronized.

A voting contest was started under the direction of Mrs. Pinkenstein to decide who was the most popular lady. The winner of the contest will be decided at the close of the evening. Every one may vote as many times as he desires at the moderate expenditure of five cents per vote. Herbert Hauser, who was scheduled to preside, had to be excused on account of his intention and instead dispensed glasses of very excellent fruit punch. Altogether the first evening was a great success, and it appears a great deal of assistance will be rendered to the church dioceses.

Today a lunch was served by the ladies between twelve and one o'clock, and a supper will be provided between the hours of six and seven this evening.

Saturday night Professor Cunningham, the celebrated pianist will tell the fortunes of the patrons of the bazaar with his usual skill.

TILL NOON

The Simple Dish That Keeps One Vigorous and Well Fed.

When the doctor takes his own medicine and the grocer sells the food he recommends some confidence comes to the observer.

A grocer of Oskan, Ind., had a practical experience with food worth anyone's attention.

"He says: 'Six years ago I began to feel weak from stomach and bowel trouble that I was finally compelled to give up all work in my store, and in fact all sorts of work for about four years. The last year I was confined to the bed nearly all of the time, and much of the time unable to retain food of any sort on my stomach. My bowels were badly constipated continually and I lost in weight from 165 pounds down to 88 pounds.'

"When at the bottom of the ladder I changed treatment entirely and started on Grape-Nuts and cream for nourishment. I used absolutely nothing else for about three months. I slowly improved until I got out of bed and began to move about.

"I have been improving regularly, and now in the past two years have been working about fifteen hours a day in the store and never felt better in my life.

"During these two years I have never missed a breakfast of Grape-Nuts and cream, and often have it two in a day, but the entire breakfast is a ways made of Grape-Nuts and cream alone.

"Since commencing the use of Grape-Nuts I have never used anything else for breakfast, and the boys and girls I had to do for years, but this food keeps me regular and in fine shape, and I am growing stronger and heavier every day.

"My customers, naturally, have been interested and I am compelled to answer a great many questions about Grape-Nuts.

"Some people would think that a simple dish of Grape-Nuts and cream would not carry one through a noonday meal, but it will and in the most vigorous fashion."

# \$500 REWARD

## for WOMEN

## WHO CANNOT BE CURED.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors and makers of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay \$500 in legal money of the United States for any case of Leucorrhea, Female Weakness, Protrusion, or Falling of Womb, which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

WHEN LOVE INVITES

The woman follows the man of her choice through the path leads out of Eden into a world untrodden and untamed. What is her reward? Many a time when her health is broken by the burdens she has borne for the man's sake, her reward is to see him turn from her to seek rosy cheeks and brighter eyes. It is man's nature to crave beauty in the wife as in the maid. And what woman is there, who would not be happy to keep her maiden bloom when motherhood has crowned her wisely? Some women seem to have found this secret of perpetual youth. "Age cannot wither them." They have learned that fairness of face and form depend upon the health, and that the general health depends upon the local womanly health. They establish regularity of the periods. They dry the disagreeable drains which draw the luster from the eyes and the vermilion from the lips as well as sap the body's strength. They quench the internal fires of inflammation in which the very elements of beauty are consumed. They heal the ulcer which gnaws into the very life. They walk the world as wonder-women exempt from the sacrifice to love. How have they done this? By the use of Dr. Pierce's Favorite Prescription, which makes weak women strong and sick women well. It matters not how weak the woman is, or how sick she is, "Favorite Prescription" will cure the womanly ills that vex her; will round out the sunken curves of her form, put light in her eyes, tint her cheeks with health's carnation, and make her a glad and happy woman.

Hundreds of thousands of women testify to the truth of these statements. Let every ailing woman read the two testimonials given below and remember that these two women speak for more than half a million other women cured by the skill of Dr. Pierce and by the use of his "Favorite Prescription." There is no alcohol in "Favorite Prescription," neither has it any opium or other narcotic.

"Two years ago I began to gradually lose my health," writes Mrs. Nellie D. Stark, Vice-President Bethesda Society, 39 Gardner Street, Worcester, Mass. "Because nervous, lost my appetite and

it seemed impossible to obtain a good night's rest. I became emaciated, hollow-eyed, and suffered with frequent heart palpitation. Complexion was bad and 'muddy' looking and I had a haggard expression. I felt as though life had lost its charm; did not care to live, for life without health is simply a living death. Dr. Pierce's Favorite Prescription changed all this. It came as a blessing into my home; I felt better in a short time after starting to use it, and within a month I was like another woman. New life, health and vigor returned and my husband fell in love with me all over again, and a new light and happiness came into my life. Your medicine did all this for me, and it is certainly worthy of praise."

"I was a great sufferer for six years and doctored all the time with a number of physicians but did not receive any benefit," writes Mrs. Geo. Sogden, 641 Honda Street, Saginaw (South), Michigan. "I had given up all hope of ever getting better, thought I would write to you. When I received your letter telling me what to do I commenced to take your 'Favorite Prescription' and follow your advice. I have taken ten bottles in all, also five vials of the 'Pleasant Pellets.' Am now regular, after having missed two years and suffered with pain in the head and back. I was so nervous, could not eat or sleep. Now I can thank you for my recovery."

MEMBERS OF ELMHURST PRESBYTERIAN CHURCH COMPLETE QUILT WORK.

ELMHURST, November 18.—The Ladies Aid Society of the Presbyterian Church met yesterday afternoon in the church parlors. At the meeting the members completed a handsome quilt, which the society has labored for two months. The care and patience bestowed on the quilt make it a valuable piece of work. It is to be sold at the Log Cabin Bakery by Mrs. Carlisle, which the society has labored for two months. The quilt was presented to the church at the close of the session.

THE ODD FELLOWS.

Last night the local lodge of the I. O. O. F. held their regular meeting in Hall Men's Hall. The customary supper was served followed by short after dinner speeches from a few of the members. Only the routine business was transacted at the business meeting. A pleasant evening was enjoyed by all.

PERSONALS.

Mrs. E. Clark, mother of the pastor of the Presbyterian Church, left last night for Denver where she is to spend the winter. She has been living here with her son for some time.

S. T. Chapin will return to Elmhurst in time for Thanksgiving. He is now in Humboldt, taking a wagon trip through that region with Loring Booth. He writes that they are enjoying the trip hugely.

Last night James J. O'Toole visited Oakland to attend the meeting of the executive committee of the Alameda County Association in the Board of Trade hall. He is the vice president of the association.

NO INDICTMENT.

COOPERSTOWN, N. Y., November 18.—William Coleman of New York, who has been confined in jail here since last August, has been released, the grand jury having failed to find an indictment against him on suspicion of connection with the stealing of jewels valued at nearly \$50,000, belonging to the wife of F. Ambrose Clark, stepson of Bishop Potter. The safe where the jewels were kept was entered during the night and the treasure boxes taken to be sold and opened.

The robbery was not discovered until several hours afterward. No tangible clue to the thief was ever obtained.

COUNTY CHAIRMAN.

Governor Odell of New York saw George Ade's great comedy drama "The County Chairman," which is to be offered by Henry W. Savage at the Macdough Theatre next Monday and Tuesday nights, three times. United States Senator Platt four times; United States Senator Chauncey M. Depew, twice; former United States Senator George Ade, three times; and former President Grover Cleveland, once. It was Mr. Cleveland who said that "The County Chairman" was one of the best and most wholesome plays he had ever seen and day, but the entire breakfast is a ways made of Grape-Nuts and cream alone.

MARRIAGE LICENSES.

The following marriage licenses were issued by the County Clerk to-day: Frank E. Hunt, Oakland, . . . . . over 21 Minnie Thompson, Oakland, . . . . . over 18 Charles A. Clark, Oakland, . . . . . over 21 Mary Ferris, Oakland, . . . . . over 21 John A. Vora, Berkeley, . . . . . over 21 Mary E. Dowd, Berkeley, . . . . . over 20 Charles A. Myers, San Rafael, . . . . . over 21 Margaret F. Kent, Oakland, . . . . . over 18

Every woman who has to keep her hands in dishwater a good deal of the time knows how soon they get rough in cold weather. If she will keep a cup of Indian meal by the sink and after she has finished her dishwashing wash her hands and wring till damp rub them in Indian meal she will be delighted to find how soft and white she can keep them.

## REAL ESTATE IS WANTED.

IMPORTANT SALES ARE CONTEMPORATED AT SAN LEANDRO.

SAN LEANDRO, November 18.—

TEA

Do you know Schilling's Best?

Do you know what it means?

Real estate is getting brisk again after the election. The various agents report that inquiries concerning the purchase of property in this vicinity are becoming more numerous and several important sales are imminent. However there is a certain class of would-be buyers who have the idea that even land in the town can be bought for from \$100 to \$150 an acre. But happily this sort of purchasers are becoming scarce and inquiries are showing a willingness to consider seriously reasonable prices for good property.

There are several new houses in the course of construction. Three buildings are rising on Estudillo avenue and two on Juana avenue as well as a few others in other parts of town. Six or seven more will be started in the near future, at least two on San Lorenzo avenue, which will be commenced within a week.

NEWS ABOUT TOWN.

Dr. G. H. O'Hea has just moved into his newly built residence at the corner of Haywards and Juana avenues. The Sporth League which meets Sunday evening in the M. E. church will be led by Miss Emma Kistler. The lesson topic is "Our Thanks to God."

WOMEN OF WOODCRAFT.  
Oakland Circle No. 206, W. of W. will initiate a large class of candidates at Woodmen Hall, Saturday evening, November 19th.

The campaign in Alameda county has been very successful and a great deal of new timber has been gathered around the

camp fire during the last few months. The present term has been very successful, and a great deal of praise is due from the neighbors of Oakland Circle No. 206 to their guardian neighbor, Dr. Fannie E. Scott, for her untiring efforts in the great work of advancing the spirit of true fraternalism.

Next Wednesday evening, Thanksgiving

evening, the Circle will give a whist tournament at Woodmen's Hall, to assist in replenishing their general fund, as there has been a great many calls for assistance during the past few months. All whist players are cordially invited, and many handsome prizes will be given.

"Well," answered Mr. Erasmus Pinkley, after deliberation, "I'll say this much. It's luckier to be kicked by one of 'em than by a rule's foot!"

# Our Winning Ways AND WE HAVE MANY

Our winning ways may have a whole lot to do with our doing the largest clothing business in Oakland, but we hardly think so. We think it is the merits of our clothes—the individuality, character and cleverness of our clothes that cause us to do this big business, for you know our clothes are marked and individual in point of style. They stand out more prominently than other stores' clothes—they have a character and refinement of their own.

These are the winning ways, and, then, they are priced so reasonably that you can't overlook them, and lots of clothes are overlooked because they are ordinary, but ours are way above the ordinary.

The suit you see pictured here is our new winter model of the double-breasted sack, which is a clean-cut, refined looking garment in a word. It has every new kink, every new idea, every clever idea known to the builders of the smartest clothes made for man. They are the sort of clothes that you take a delight and pride in wearing.

## PROPOSE A NEW TOWN HALL SITE.

NORTH BERKELEY IMPROVEMENT CLUB TAKES ACTION—TO PRESERVE CREEKS.

BERKELEY, November 18.—That the town hall site should be changed from its present location to Shattuck avenue between Bancroft way and University avenue expressed in a resolution unanimously adopted last night at the regular meeting of the North Berkeley Improvement Club. The resolution was presented by C. H. Street.

A step to improve the natural beauty of the creek of this city was taken when Frank Todd and F. W. Richardson were appointed a committee to prevent concrete culverts from being placed in Cordones creek at Walnut and Oxford streets.

## DR. WOOLSEY ON CONSOLIDATION.

WOULD LIKE TO SEE OAKLAND ANNEXED TO SAN FRANCISCO.

At a recent meeting held in the Board of Trade rooms when the subject of consolidation was discussed, Dr. E. H. Woolsey, who was unable to be present, sent the following letter: "To the President of the Board of Trade—Dear Sir: As I cannot be present at the meeting tonight I desire to suggest the important need of continuous effort to get something for our money—something of material benefit to Oakland instead of the enforced privilege of feeding a large army of tax eaters; also to suggest the consideration of the question to the annexation of Oakland to San Francisco, whereby our tax rate would be reduced from \$2.83 (our present rate) to \$1.65½ the present San Francisco rate for city, county and State. "The time of traveling by car and boat from the business center of Oakland to the business center of San Francisco is not greater than the time of traveling by street car from the business center of San Francisco to its own suburbs.

"And the present service by train and boat to and from San Francisco is about every eight minutes during the day with the prospect in the near future of a service every five minutes—a practical bond of unity.

"Doubtless, there are fewer difficulties in the way of annexation to San Francisco than in the consolidation scheme and the advantage of the former would be vastly greater.

"The consolidation of a city and county government under either of the names of Oakland, Alameda or Berkeley would still place us as a second-class city on the map of California with but second-class advantages.

"Let us forget the village name of Oakland and join San Francisco. Then we will move up on the map of the world where we should have metropolitan advantages of every description and especially lower taxation than by any other process. "Of course, object, but I think every man not a politician who pays a dollar's taxes in Oakland would sign a petition for the annexation referred to. Very truly yours, "E. H. WOOLSEY."

# SPORTS ON TRACK AND FIELD.

BERKELEY, Nov. 18.—It has been decided that there will be no admission for the interclass handicap field day which comes off tomorrow afternoon at 2 o'clock. Assistant Track Captain Clifford has worked hard with the track men this fall, and the latter have been turning out well, especially the underclass-

of veterans, besides a AFSC. Hundreds of newly developed men are coming out of these new camps going to make some "Big C" men hustle for their jobs next spring. The freshmen have a specially promising number of men, and it is upon them that California will rely.

## WOMEN'S CLUBS TO MEET.

GATHERING OF MANY PROMINENT LADIES IN THE ENCINAL CITY.

ALAMEDA, November 18.—Next Tuesday, the 22d inst., will be a notable day in the history of the Alameda Adelphean Club. The fourth annual convention of the clubs of Alameda District of the Federated Women's Clubs of California is to be held in the Adelphean Hall on Park street, opening at 10 a. m., and the ladies of the Adelphean Club will be the hostesses of the occasion. The Alameda division includes the women's clubs of the cities on this side of the bay and of a number of interior cities and towns, all of which will send delegates or alternates, so that the gathering will be an important one. The morning session will be devoted to business affairs and receiving reports of officers, and at noon a luncheon will be served the delegates and visitors by the Adelpheans. At 2 p. m. reports of State committees are to be presented, after which Mrs. A. A. Goddard of the Tuesday Club of Sacramento, will deliver a lecture on the work accomplished by the State Federation. During the afternoon a number of musical numbers will be rendered. A large attendance is expected at the convention. **CHARGE DISMISSED.**

ALAMEDA, November 18.—James McGinnis, keeper of a boathouse on the estuary near the Webster-street bridge, will not have to stand trial before the Superior Court on a charge of assault with a deadly weapon, preferred by Tony Cotino. The charge was dismissed yesterday at the conclusion of the preliminary hearing before Justice of the Peace Frederick S. Cone, on motion of Deputy District Attorney T. W. Harris, it being held that evidence was insufficient to convict before a jury.

Cotino was taken to the receiving hospital in Oakland two or three weeks ago with severe lacerations on the scalp which he claimed were inflicted by McGinnis with a barbed-wire scraper used about the boathouse, and alleged that the boatman had followed up the attack by firing a shotgun in his direction as he left the scene. The prosecuting witness had a witness a number of his compatriots, all of whom gave testimony with striking unanimity as to the exact number of feet the combatants were apart when the trouble began and on other points, indicating that they had carefully compared their testimony beforehand. At least this view was taken by Deputy District Attorney Harris, and McGinnis

his sworn Cotino and some countrymen had snarled on his boat and that he had acted in self-defense.

**DANIEL SWETT INJURED.**  
ALAMEDA, November 18.—Daniel S. Swett, who a week ago lost his wife by death under circumstances particularly sad, met with a further misfortune yesterday afternoon on the Swett homestead on Bay Farm Island, when he slipped in alighting from a wagon and broke his right leg near the ankle. He was removed to the home of Chief of Police John Conrad in this city, and attended by Dr. Weston O. Smith. Mrs. Conrad, wife of Chief Conrad, has been seriously ill with nervous prostration at the Alameda Sanatorium, her illness having followed her daughter's death. Her friends are pleased to know that she is now reported out of danger.

**RECEPTION TO PASTOR.**  
ALAMEDA, November 18.—Rev. J. C. Robertson, the new pastor of the Methodist Church South on Union street, was tendered a reception yesterday from 11 to 2 o'clock in the church parlors, the affair being largely a fete. Many of the pastors of churches on this side of the bay were present, and made felicitous speeches. The address of welcome was delivered by Chaplain W. H. Scott, U. S. A. Vocal solos were rendered by Mrs. Vaughan and Mrs. Wastie, while Mrs. A. J. Samuel gave a reading and Mrs. Vaughan a vocal solo. The reception was followed by a banquet at the parlors, 1512 Union street.

**BENEFIT A SUCCESS.**  
ALAMEDA, November 18.—The dramatic recital given last evening in Adelphi Hall for the benefit of the building fund of the Adelphean Club proved a notable success financially and artistically. The program was given under direction of Mrs. Sydney Yarn, including the following numbers: "A Norwegian Bride" (recitation), "The By" (Grieg) Miss Ida Marriott; monologue, "The Sweet Girl Graduate" Miss Alma Sevensen; recitation, "How the Church was Built at Kehoe's Bar," Mrs. Sydney Yarn; "Rondo Capriccioso" (Mendelssohn); Mrs. Grace Harding Maguire; recitation, (a) "The Frank Letter" (b) "The Surprise" Miss Alma Sevensen; comedy, Mrs. Montgomerie; Mrs. Sydney Yarn; Mrs. Montgomerie Jones (a widow), Miss Alma Sevensen; Juliette (a lady's maid), Mrs. Jessie Yarn Jackson.

**IMPROVERS MEET.**  
ALAMEDA, November 18.—At the regular meeting in the Wigwam last evening of the West End Alameda Improvement Association an address was delivered by Rev. William Norman Guthrie, rector of Christ Episcopal Church, his topic being, "The Church and the Moral and Social Atmosphere of Alameda." George Renner also made some remarks on his observations during a recent trip through Southern California.

**BIRTHDAY SURPRISE.**  
ALAMEDA, November 18.—Mrs. M. Licker of 2044 Santa Clara Avenue was given an enjoyable surprise last evening by her friends upon the occasion of her birthday anniversary. Refreshments were served during the evening. Among the guests were Mr. and Mrs. D. Wilson, Captain and Mrs. Jordan, Mr. and Mrs. F. Delplaine, Mr. and Mrs. Fred Blanch, Miss Ida Strauss, Miss O'Brien, Mrs. L. J. Harding, Miss Ida Strauss, Samuel Ackerman, Misses Emma and Merveta Hunter.

**BRIEF ITEMS.**  
ALAMEDA, November 18.—Fire Chief Krauth has installed fire alarm box No. 25 at the corner of Walnut street and Santa Clara Avenue, in place of box 37, recently removed. The senior barge race between the crews of the Alameda Boating Club and the Dolphins, scheduled for Sunday on the estuary has been called off, as the Dolphin Club failed to get together

a crew. The race was to be for the Olympic cup. The Oakland Transit Consolidated has a gang of men at work making temporary repairs to the rails on Santa Clara Avenue. The rails are being raised in some places and dangerous joints made even. Spruce Camp, No. 132, Woodmen of the World, is to hold its regular election of officers on Monday evening, the 28th instant.

The manager of the football team of Anderson's Academy has sent a note to the High School calling off the game which was to have been played tomorrow with the local eleven. The reason for canceling the date is that the team at Anderson's has disbanded. The United States history section of the Adelphi Club met this morning, the subject being "Connecticut, the first of the thirteen colonies to ratify and adopt the United States Constitution."

**PERSONAL MENTION.**  
ALAMEDA, November 18.—A coffee party was given this afternoon at the home of Mrs. S. W. Schroeder, 700 Railroad Avenue, for the benefit of the Ladies Aid Society of the German Lutheran Christ Church. Mrs. Schroeder was assisted by Mrs. Gottstein in entertaining the guests. Miss Alia Mastick of Portland, Oregon, is the guest of Mr. and Mrs. Frank Oils at their home on Santa Clara Avenue.

William Hammond Jr. is to leave on Monday for Goldfield, near Tonopah, where he will look after the interests of the Hammond Lumber Company of Oakland, which is to ship in a large amount of lumber. The freight on the shipment will amount to about \$35,000. Officers of the Christian Endeavor Society of the First Congregational Church have been installed as follows: President, William T. Locke; vice-president, Mrs. J. D. Rogers; corresponding secretary, Miss Ruby Dexter; treasurer, Miss Mabel Dewing. Jesse F. Ives, formerly of this city, and at one time Oakland manager for the Derby Lumber Company, is to remove from Los Angeles, where he has spent some years, to reside in Seattle. He has recently received a material advancement in the Stimson Lumber Company, having been taken into the firm and will look after its interest in the North under a large salary. His family will join him at Seattle in the spring.

**RAILWAY MAN DIES.**  
CHICAGO, November 18.—S. O. Brooks is dead at his residence here of heart disease. He was for a number of years general freight agent of the Chicago Great Western, and for the last two years freight traffic manager of the Pere Marquette Railway. Mr. Brooks was born in Missouri in 1849.

## TRUSTEES AMEND LICENSE.

HAYWARD OFFICIALS HAVE ENLARGED THEIR PRIVILEGES.

HAYWARDS, November 18.—Wednesday evening the Board of Trustees held the regular meeting though but three members being present. A. L. Graham, George Kavanagh and M. C. Peterson. In the absence of the President Hyer, the chair was occupied by M. C. Peterson.

A. L. Graham proposed an amendment to the license now in force. The ordinance if so altered would empower the town to grant licenses to bicyclists, telegraph and telephone companies, water and light companies, and house to house solicitors. The amendment was passed to print and will be finally acted upon by the Trustees at their next meeting.

A motion was passed to instruct the Superintendent of Streets, Charles J. Schilling, to enforce the existing ordinance concerning the replacement of the paving wherever torn up to reach the underground pipes. The ordinance requires that every one before commencing such work shall deposit a sum of not less than \$20 with the Superintendent of Streets, and if the street be not properly restored, the deposit shall be devoted to replacing the paving in a suitable manner. The ne-

cessity of enforcing the law was caused by the careless way its provisions were carried out, the macadam being sometimes put at the bottom of the excavation, and at other times the place not being properly tamped, a mound remained which was a great inconvenience to vehicles.

Mr. Murphy of Haywards addressed the board stating that he was in a position to do the numbering of the houses in town if given permission by the Trustees to go ahead. His plan is to use metal numbers to be placed in a metal frame, the householders to pay forty cents per number, and nothing to be paid by the town.

As Mr. Murphy is a citizen of Haywards and it is the policy of the board to encourage home industry, the action endorsing the Weber House Numbering Company was rescinded and permission given Mr. Murphy to start the work as soon as possible.

**NEWS NOTES.**  
William Pimental and his bride returned Wednesday from their honeymoon in Southern California. They were married in Oakland Sunday, November 6.

A new water pipe has been laid on B street between Castro and Watkins streets. It is expected that the work will be continued up B street immediately. Charles Schilling, superintendent of streets, has charge of operations.

**BUTLER MAY BE A JEWEL THIEF.**

NEW YORK, November 18.—Although the Butler who is believed to have stolen \$2000 worth of jewels from Mrs. Lorraine-Bailey of Elizabeth and this city has thus far eluded the police, he is thought to have been located on the passenger list of a steamer bound for Europe and instructions have been cabled for his arrest.

Traces for some of the stolen jewelry has been found through the arrest of a clothing cutter in whose possession was found a diamond brooch. The man said he advanced \$20 to the Butler on the article. He was arrested and made to work on the jewelry before the suspended operations on the costumes for a large operation, her sixty to work girls being unable to proceed without the help of the cutter.

**BRICKLAYERS MAY GO ON STRIKE.**

NEW YORK, November 18.—The bricklayers' unions, which are working under the Building Trades arbitration agreement, have become involved in the Building Trades' trouble and strikes or a lockout involving 11,000 bricklayers in this city may be ordered. Bricklayers are laying tiles in a new addition at Eleventh Avenue and Thirty-ninth street, and a strike was ordered on the protest of the Tile Layers Union. The contractor took the matter before the arbitration board and the Mason Builders' Association ordered the men back to work. The bricklayers and tile layers unions are dissatisfied with the decision.

## NAGGING PAINS

Newport News, Va., July 22, 1903.  
Last summer while recovering from illness of fever, I had a severe attack of inflammatory rheumatism in the knee, from which I was unable to leave my room for several months. I was treated by two doctors and also tried different kinds of liniments and medicines which seemed to relieve me from pain for awhile, but at the same time I was not any nearer getting well. One day while reading a paper I saw an advertisement of S. S. S. for Rheumatism. I decided to give it a trial, which I did at once. After I had taken three bottles I felt a great deal better, and I still continued to take it regularly until I was entirely cured. I now feel better than for years, and I heartily recommend S. S. S. to any one suffering from Rheumatism.  
613 32d St. CHAS. E. GILDERSLER.

Rheumatism is caused by uric acid or some other acid poison in the blood, which when deposited in the muscles, joints and the stiffness and soreness peculiar to this disease. S. S. S. goes directly into the circulation, all irritating substances are neutralized and taken out of the system, the blood is made pure and the general health is built up under the purifying and tonic effects of the vegetable remedy.  
Write for our special book on Rheumatism which is sent free. Our physicians will advise without charge all who will write us about their case.

## UNIVERSITY CHEMIST HURT IN EXPLOSION.

Dr. Fred G. Cottrell Injured While Conducting An Experiment With Alcohol.

BERKELEY, November 18.—As the result of the explosion of a bottle of alcohol with which he was experimenting, Dr. Fred G. Cottrell, instructor in physical chemistry at the University of California is suffering with badly burned face and hands and threatened blindness in one eye.  
The accident occurred at a late hour last night at Dr. Cottrell's home, 1515 Spring street, after he had returned from the chemistry laboratories at the University. At the time of the explosion the young faculty member was engaged in an interesting experiment that he had started at the University and attempted to conclude at his home.  
While in the act of pouring alcohol from a bottle Dr. Cottrell stood near a flame which caused the volatile liquid to detonate. The explosion was a severe one, the alcohol shattering the glass of the bottle and sending forth a sheet of flame that seared the side of his face and touched the eye-ball.  
It was at first feared that the eye might have been blinded and the removal of the bandages will be watched with anxiety by his numerous friends at the University.

## GREAT FORENSIC CONTEST IT'S IN THE BLOOD SETS THE BROKEN LEG OF A HORSE.

Freshmen and Sophomore Debaters Will Hold the Platform at the University Tonight.

BERKELEY, November 18.—One of the greatest interclass contests of the year will take place at the University of California tonight, when representatives of the freshmen and sophomore classes will debate the vaccination question.  
The judges who have been appointed are Professors William B. Ritter, Martin Fishery and C. D. von Neumayer. As is the custom in intercollegiate debates, the decision will be rendered strictly on the merits of the debate, and the merits of the question will not be considered other than as presented by the debaters. This will make up for any possible differences that may exist between the sides.  
N. A. Blaser, M. A. Derrham and D. J. Whitney will uphold the affirmative for the freshmen, while the sophomores will occupy the negative side of the room. The freshmen will sit on the opposite side, and will be led by F. Berthold.

January. Owing to the signal financial success of the big football game held last Saturday on California field, there is little doubt but that the campus game of the year will be renewed.  
There is, however, considerable dissatisfaction showing itself at Berkeley over the rule prohibiting the employment of any coach who is not a graduate of the University whose team he is hired to coach. It is expected that this question will be discussed at length before the meeting of the agreement committee in January, and it is possible that this part of the agreement may not be renewed.  
It is claimed by many supporters of the blue and gold that an injection of Eastern methods of coaching is badly needed for the good of California football. Those who are dissatisfied with the present system, while praising the loyal efforts of the California men who have taken coaching positions in January, and it is possible that this part of the agreement may not be renewed.

## HAVE TO DECIDE ON NEW RULES.

AGREEMENT BETWEEN CALIFORNIA AND STANFORD WILL SOON EXPIRE.

BERKELEY, November 18.—The intercollegiate agreement between Stanford and Berkeley, providing, among other things, for a graduate coach system and campus games, expires next month and a new agreement must be drawn up in the time of their trial.  
The intercollegiate committee for California are Leo Bishop, Graduate Manager, E. B. Coto and Everett J. Brown. These men will meet three from Stanford in San Francisco on the fourth Saturday in January when the matter will be finally decided.  
Haverly's Minstrels, under the sole and exclusive direction of W. E. Nankoville, will be seen at the Macdonough Theater tomorrow afternoon and night and Sunday afternoon and night. Under this progressive management, minstrelsy has been elevated to a point where it has been accepted as the polite form of varied entertainment, both by fashion's representatives and the commoners. During the managerial career of Mr. Nankoville, his motto has been to always get the best, his argument being that in order to do business, you must have the goods, and his appeal to all enterprises, commercial or theatrical. In engaging this season's company, which numbers about half a hundred, he had but one aim in mind.

BERKELEY, November 18.—To-morrow from 3 to 5 o'clock the first Associated Women Students' open house of the year will be held in Hearst hall, the Senior and Sophomore girls having complete charge. They will serve as hostesses to all the women students of the University.  
Miss Cornelia Sutton, '07, has prepared an entertaining monologue while Miss Valentine, '08, will sing a solo. The best feature on the entire program and the one of which the student body is most anxious to hear, is the Shadow Play. In addition to the play, there will be music and dancing, and a delightful program is assured.  
Miss Ethel Richardson, president of the Associated Women Students, has appointed the following committees to supervise the affair:  
Arrangements—Miss Daphne Huskey, '05, chairman; Alma Bennett, '05, Anna Tucker, '07; Alice Joy, '07; Florence Dodge, '05; O'Connell, '05, and Frances Sanborn, '07.

AMUSEMENTS AT THE MACDONOUGH

That best of all military plays "Arizona" opened at the Macdonough last night for a two nights' engagement here. The house was not as large as such a do not play any longer the school, but "Arizona" has been seen here before and the company now presenting it suffers none by comparison. In fact, last night's performance seemed to go with a snap and dash even greater than the original company put into it. The whole surroundings of the place are so natural and real and the story and plot so feasible and possible that it makes Arizona the best American drama of the day. It is on again at the Macdonough to-night for its last presentation here, and should be greeted by a large house.

## SETS THE BROKEN LEG OF A HORSE.

VERTEBRINARIAN WARD ACCOMPLISHES DIFFICULT TASK AT THE UNIVERSITY.

BERKELEY, November 18.—The difficult and unusual task of setting successfully the broken leg of a horse has been accomplished by Dr. A. R. Ward, veterinarian of the University of California, and his assistant, Dr. C. M. Harling. The horse's leg was kept in a tight plaster cast for six weeks. Today the cast, which was over half a foot thick, was removed and with the exception of a slight limp, which will soon wear off, the horse is as good as ever.  
The animal on which the University surgeons experimented was purchased from a local butcher for the sum of \$3. The butcher had the misfortune to run the horse from a local veterinarian and afterwards drive it into a swift-going Southern Pacific local. The left foreleg of the animal was broken, below the knee by the collision. The veterinarian demanded \$400 for the leg. From the butcher, thinking that the horse was a useless burden turned it over to Dr. Ward. After setting the broken bones, the leg was put into a plaster cast big enough to prevent any movement of the bones, and along with the leg was put down and standing up at will under the protection of the casing around the injured limb.

## LIBERTY PLAYHOUSE

At Ye Liberty Playhouse this week the greatest of all plays is the attraction. "When We Were Twenty-one" was first produced by Nat Goodwin and Maxine Elliott, and since then no play has been written that deserves the title more than it does. It is cleverly constructed and introduces both the strongest of comic climates and the brightest of comedy situations.  
RUSSIAN ARSENAL DESTROYED.  
TOKIO, November 18, 3 p. m.—A telegram from Muzil reports the destruction of another Russian arsenal and magazine at Port Arthur. The Japanese discovered, it is said, the location of the arsenal and centered their artillery fire upon it. After dropping 200 shells in the locality they succeeded in blowing it up.  
The Japanese are widening their saps and are using them to move their guns forward.  
The Russians continue their spirited sorties, using hand grenades in their attacks upon the saps.  
More Riots.  
Disturbances of workers are not nearly as grave as an individual disorder of the system. Overwork, loss of sleep, nervous tension will be followed by a strike, unless a reliable remedy is immediately employed. There's nothing so efficient to cure disorders of the Liver or Kidneys as Electric Bitters. It's a wonderful tonic, and effective nerve and the greatest all around medicine for run down systems. ## MRS. VAN HORN DENIES HUSBAND'S CHARGES.

Declares Under Oath That Adolph Knopf Did Not Kiss and Caress Her.

When THE TRIBUNE went to press yesterday afternoon the Van Horn divorce case was still on trial before Judge Ogden in the Superior Court. Mrs. Van Horn concluded her story and the trial was continued until tomorrow morning.

**THE WIFE'S STORY.**  
When Mrs. Van Horn took the stand yesterday afternoon she concluded her story of the scene in the parlor. Mrs. Van Horn's coat collar and she cried "You are choking me."

**VAN HORN TAKES A DRINK.**  
"At this juncture a Mr. Gray, who was boarding in the house, came in and separated us. Then the three of us went into the dining room and my husband took a drink of wine. I said to Mr. Gray to give him all the wine he wanted, as he was drunk already."

"Mr. Gray insisted that Knopf should leave the house, but I did not want him to go. He did not return until 6 o'clock on Friday evening, March 18, three days later. He went up stairs into my bedroom."

**GUN PLAY DESCRIBED.**  
"In the presence of my daughter, he drew out a revolver and said that if he had the gun, as he called it, Tuesday night he would have shot me."

**"SHOOT ME NOW!"**  
"I said, 'Shoot me now,' went on Mrs. Van Horn in a tragic manner. Then he made threats against Mr. Knopf."

**THE NEXT MORNING.**  
"The next morning, at half after 5 my husband came to my room and said, 'That young man slept in the house last night.' I said, 'Yes, I know he did.'"

**THREATENED ARREST.**  
"My husband continued to abuse me and I threatened to call an officer," continued Mrs. Van Horn. "That day he resumed his place at the table."

**HUSBAND BREAKS DOWN.**  
"Then my husband came and put his arms around me and cried and said he had been the most miserable man in the world for two days. He also offered to help me with the housework, but I would not let him. Then he

students down town at Berkeley station?"

**DID NOT KISS.**  
"Did you ever kiss Adolph Knopf?" "No," laughed Mrs. Van Horn. "Did Knopf ever caress you or put his hand in your's?" asked Judge Ogden.

"No," she said. "Did Knopf have charge of your purse and pay the accounts of the house?" asked the Judge.

"No, he did not," "Did Knopf kiss you while you were reading the paper in the kitchen?" "No," said Mrs. Van Horn.

**SCENE IN THE KITCHEN.**  
Mrs. Van Horn decisively stated that the testimony of her cook, Mrs. Sibel, was erroneous. She claimed that she had not kissed Knopf in the kitchen, and denied that her cook could have seen any such scene through the china closet.

**A PURRING LAUGH.**  
In referring again to the scene in the parlor Mrs. Van Horn was questioned about Knopf's standing in the doorway, refusing to let her through and asking if she had a "purring" laugh. It was shown that an article had been read in the paper describing different methods of laughter and Knopf was questioning her as to her "purring" laugh.

**DID NOT EMBRACE HER.**  
"Did you have any lascivious conversation with Knopf on the couch in the front parlor?" "No, I did not," "Did he embrace you?" "No," "Did he put his face on your neck?" "No," "Did Knopf, as your husband state, declare that he could not get along without you?" "No," "Did you ever go to Knopf's home?" "Yes," "And to Mr. Cahill's home?" "Yes, several times."

**VAN HORN INTOXICATED.**  
When Mrs. Van Horn was asked as to her husband's condition at the time of the scene in the parlor, she said: "He was intoxicated."

**MADE NO CONFESSION.**  
"Did you confess to your husband that you had been foolish but that on your sacred honor you had never done anything criminal?" asked Judge Ogden.

"No, I never did," came her firm reply.

**ALLEGED CRUELITIES.**  
A line of questioning was then taken up by the attorneys for the defense to prove the allegations that Mrs. Van Horn had been cruelly treated by her husband.

**HER MARRIED LIFE.**  
Mrs. Van Horn stated that when she married November 4, 1885, "I immediately taught school with him. When I was about to become a mother and asked to be relieved of my position as teacher, he then asked me if I wanted to be a millstone about his neck, and that if I had the true spirit I would remain."

**DID NOT VISIT SICK WIFE.**  
Mrs. Van Horn stated that when the child, Miss Marion, was born she was left at her mother's home, and that he did not come to see her for three months, although the ride was but an hour and a half.

**WANTED PAPERS SIGNED.**  
"My husband then told me he wanted some papers signed and that he would be best for me to do so. When I would not do so he again insulted me. At another time he asked me if anybody was purring around me now."

**FAMILIAR WITH COOK.**  
"I answered no, but that he had been familiar with the cook. He said, 'Well, I have a good deal to be familiar with, haven't I?'"

**WANTED A DIVORCE.**  
"Did he tell you the nature of the papers?" "No, except that he wanted to get a divorce from me."

**ALONE WITH KNOPF.**  
"Were you ever alone with Knopf?" "Well, I made up the beds, and when the students were in their rooms I came in to do my work."

**WHICH OF THE STUDENTS IN YOUR BOARDING HOUSE DID YOU KNOW THE BEST?**  
asked Attorney McNear.

"Mr. Cahill, Mr. Gibbs and Mr. Knopf. We called them by their first names."

"Did you ever meet any of the

went anyway. He did not want me to have children."

"Did Mr. Van Horn ever show aversion to children at any other time?" was asked Mrs. Van Horn.

The witness then went on to state that her husband had wanted her to submit to an unlawful operation.

Mrs. Van Horn's testimony was closed at this point.

**SENIORS HOLD ASSEMBLY TONIGHT**

BERKELEY, November 18.—At eight o'clock this evening the seniors of the University will hold their second assembly. They have obtained the use of Hearst Hall, which will be engaged for the freshmen-sophomore debate, but which was closed to the seniors in view of the better dancing facilities offered by it.

J. M. Wolfson is chairman of the general committee. The general committee consists of G. B. Gilson, chairman, Miss Ethel Richardson, Miss Agnes Sims, D. E. Bowler and J. W. D. Bingham. D. P. Booth will act as floor manager.

Lower classmen holding tickets will not be admitted, as it is aimed to make the affair strictly for the seniors.

**Tragedy Averted**  
"Just in the nick of time our little boy was saved," went Mrs. T. V. Watkins of Pleasant City, Ohio. "An unmonitored child had been with him and a terrible cough set in. Doctors treated him, but he grew worse every day. At length we tried Dr. King's New Discovery for Consumption, and our darling was saved. He is now healthy and well. Everybody ought to know it's the only sure cure for Coughs, Colds and all Lung diseases. Guaranteed by Oregon Bros., druggists, Seventh and Broadway, and Twelfth and Washington. Price 50c and \$1.00. ## SURVEYOR GUILTY OF FORGERY

PORTLAND, Ore., November 18.—Henry Meldrum, formerly United States Surveyor, has been found guilty of forgery on twenty-one counts by a jury in the United States District Court. This is the first conviction in the so-called land fraud cases now pending before United States District Judge C. B. Bollinger.

Meldrum was accused of having, while United States Surveyor, forged the names of eighteen persons to applications for surveys of land in Harney county, Oregon, west and southwest of Harney Lake.

The contract for surveying this land was awarded to Rufus S. Moore, Meldrum's nephew, for \$350.

## EXCITING TIME WITH A BEAR

BERKELEY, November 18.—F. Helm, nursery foreman for the departments of botany and agriculture at the University of California, has just returned from a trip into the redwoods of Mendocino county, where he had a hair-raising encounter with a large cinnamon bear. While gathering seedlings in the forests, Helm disturbed the bear where it was lying in a thicket and was treed by the infuriated animal. He managed to make his escape by dropping to the ground from the end of a limb and beat a retreat before the bear could follow.
